

## News Feed Upgrade

In an effort to consolidate some of our news feeds, we are moving our feeds to FeedBurner. In theory this should not affect anyone's current news readers but please be aware that this switch is taking place.

If you are subscribed to our news feeds you should see this item and then in approximately 24 hours you should see another one saying that the switch has taken place. If you do not get that message please contact us so that we can try and remedy the situation.

We appreciate all of our news subscribers and have made every effort to make this change over as smooth as possible.
